

HEAVY-DUTY MOTION BASES

Our Heavy-Duty Motion Base (HDMB) is built to exceed the highest operational up-time. With a class-leading payload allowance, the 3-DOF HDMB is a must-have for modern-day parks. Perfect for a highly themed cabin or a tour-bus turned into a motion show on your property, the HDMB is sure to leave both guests and your operations team smiling.

INCREASED PAYLOAD

Provides a 50,000 lbs (23 metric ton) weight allowance for a ride vehicle or custom-themed cabin

HEAVY DUTY DEPENDABLE

Proven record of 100% Up-Time. Unceasingly Reliable & dependable

ACCURATE 3-DOF MOTION

Position accuracy within .25mm

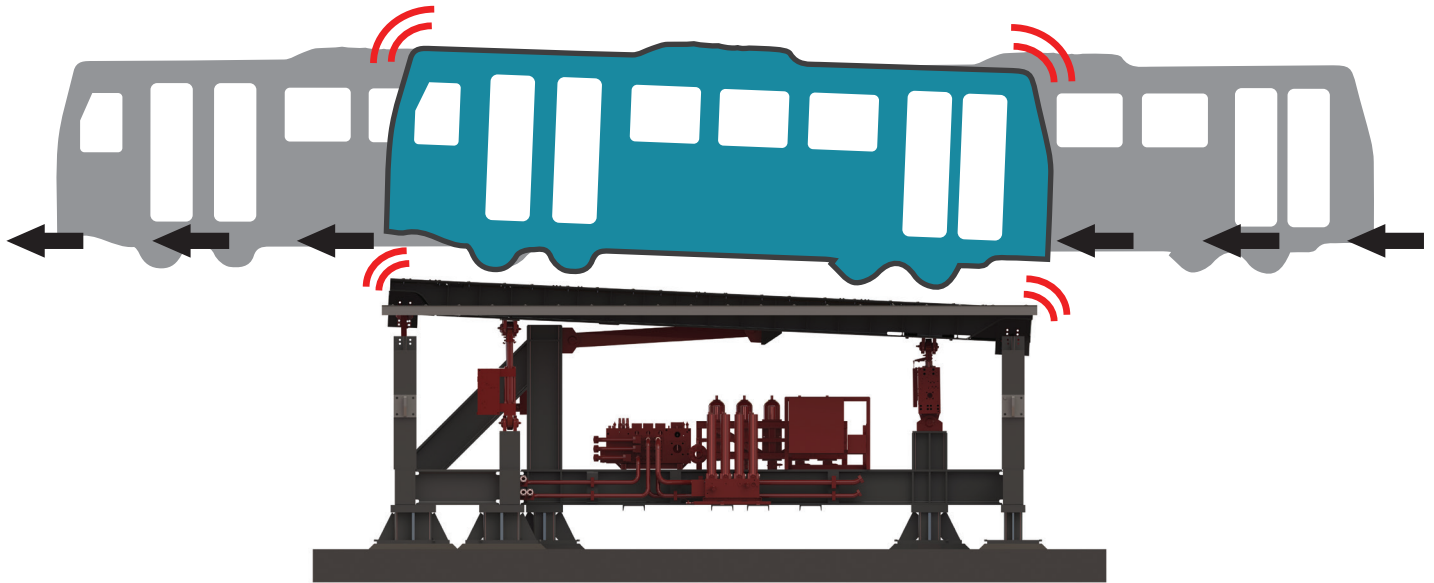

TRUE PLUG-AND-PLAY

Ships assembled and tested and can be installed in less than eight (8) hours

HEAVY-DUTY MOTION BASES

Turn park tours and intellectual property into new & exciting sought-after attractions with guaranteed-to-run equipment

Single or multiple bases engineered to work in cooperation to extend ride experience
